

Safway Group Fact Sheet

Delivering Access & Industrial Services

THE SMART WAY™

Largest Network of Branches and Locations

With more than 90 locations in the U.S. and Canada and a growing system of distributors worldwide, Safway Group companies deliver high-performance multiservice solutions – THE SMART WAY™ – by collaborating, communicating and sharing resources. Offering experience and expertise in access, scaffolding, insulation, fireproofing, surface preparation and coatings, Safway Group companies include **Safway Services; Safway Canada; Redi Solutions; CL Coatings; Industrial Coatings & Fireproofing; S&E Bridge and Scaffold; Swing Staging and Safway Atlantic.** Safway has been an industry leader since 1936.

Spirit of Innovation and Growth

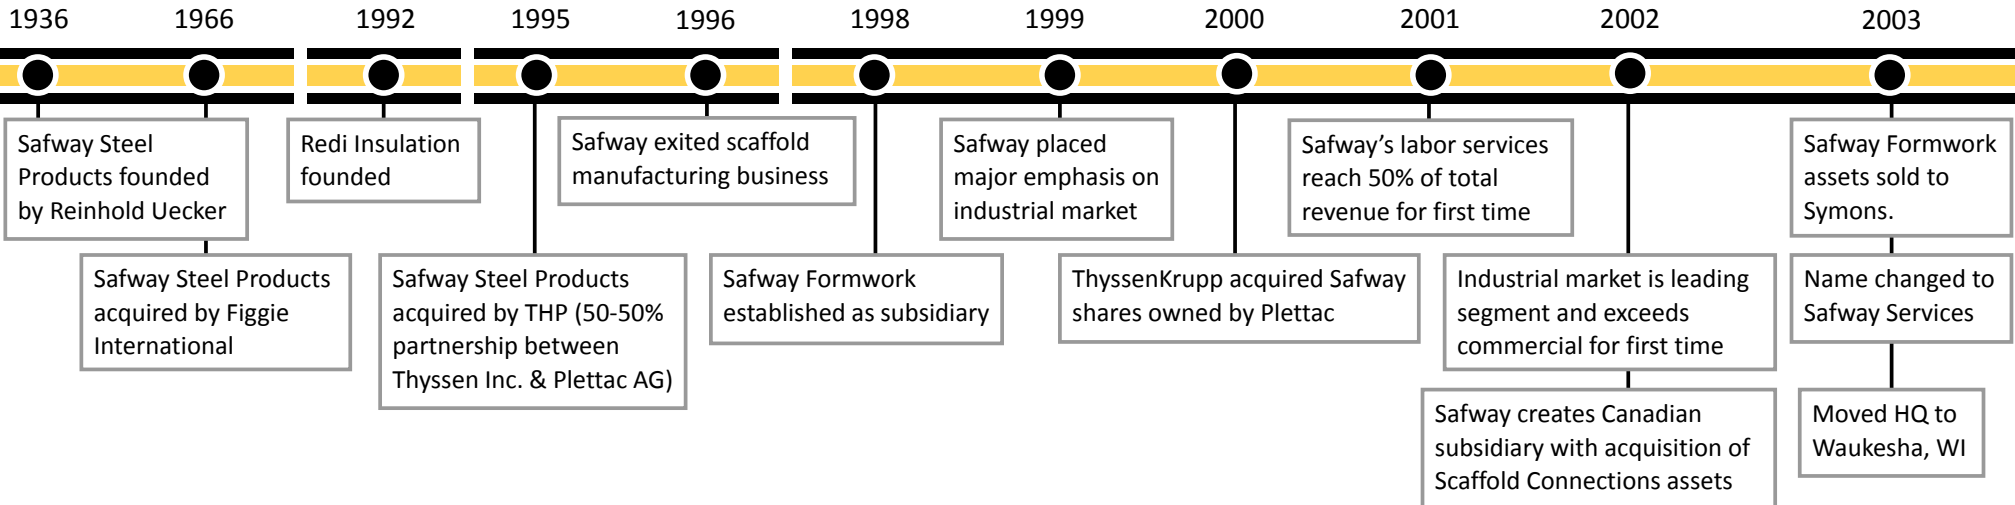

Over more than 75 years, a spirit of innovation has been crucial to Safway's growth and success. Our continued focus on increasing efficiency and safety, together with our ongoing emphasis on research and development, has led to numerous new approaches, products, systems and patents. In 1984, Safway received a U.S. patent for Systems™ Scaffold. In 2009, the SafAscent™ Wind Turbine Platform was launched. *(Continued on back.)*

Access Products

- SafScan™ Imaging

Industrial Services

- Insulation
- Metal Sheeting
- Metal Siding and Roofing
- Fireproofing
- Customized Insulation Blankets
- Non-Destructive Testing
- Surface Preparation
- Spray and Trowel On Fireproofing Systems
- Tank Coatings and Linings
- Coating Programs
- Industrial Painting
- Lead Abatement
- Floor Coating Systems

Safway Group Fact Sheet

More recently, Safway introduced both the SafRise Climber™ and the QuikShield™ Suspended Access System in 2013. In addition, during that same year, Safway Group and Honeywell Safety Products launched the Miller Turbolite Personal Fall Limiter™; and Safway Group became the primary distributor of HAKI® products in North America.

Engineered for High-Performance

With the largest Engineering and Research Department in the industry, Safway can design and plan every aspect of your project – often offering significant overall savings in labor costs, equipment and time. Supported by state-of-the-art 3-D Computer-Aided Design (CAD) and structural analysis software, our licensed civil, structural and mechanical engineers can develop custom, innovative products and solutions to meet the unique needs of any situation at the lowest total installed cost.

Project Management

You can count on Safway to provide experienced, industry-specific project management and field supervision. From pre-job conferences, to delivery of equipment, to on-site inventory management, to scheduling and coordination, Safway’s project managers will see that your job gets done right. We also offer the Safway Tracking System (STS), the most robust project management tool

in the industry. An exclusive system that captures and generates real-time data about your project’s equipment, labor, inspections and productivity, STS allows you to obtain up-to-the-minute reports right on your computer.

Award-Winning Safety

Our bottom line is safety. Safway is committed to developing a safe culture along with a comprehensive system to support continuous improvement in this critical area. Safway has an outstanding, award-winning track record in safety, which was highlighted in “EHS Today” magazine. We can provide site safety professionals with on-site expertise to assist in field management, including assurance of OSHA, Cal/OSHA and OH&S compliance. In addition, we are the only company with our own Training University and have trained more than 40,000 of our own employees and over 40,000 of our clients.
